

Declaration

in favour of

Peace and Non-violence

Today, more than ever, I have a sensation that we are moving towards a world that is less secure and more violent.

I do not feel that such a world is good for me, my family and people around.

I would not like that my next generation inherits such a world.

I declare that I am in favour of all efforts coming from any corner of the world that helps to reverse this situation of violence in favour of Peace and Non-Violence.

I along with my family and colleagues wholly support a world where Peace and Non-Violence prevails.

WE SUPPORT
